The study, commissioned by the Campbell County Economic Development Department and conducted by consulting firm Kimley-Horn, was undertaken to evaluate use of portions of Lynchburg Regional Airport combined with adjacent Campbell County property in order to support economic growth within the region by capitalizing on available land that has convenient access to both air and highway networks.

There is a statutory requirement that public notice be given for any gathering of three (3) or more elected or appointed public officials. The meeting will be open to the general public.
