TO WHOM IT MAY CONCERN: LYNCHBURG CITY COUNCIL

RE: PATRICK STREET SIDEWALK PROJECT

We the community of Dearing ton would like to bring to the attention of the council the need of a sidewalk in our neighborhood.

It has been ten years since this project was first introduced to the council. At that time we were told that we didn't have enough school-aged children living on the block to sarrant the need for a sidewalk.

Times have changed and I see children playing in the streets with their bikes, almost getting hit by passing traffic and I feel it is time for a change. I have nieces and nephews that visit on occasion with their bikes and no place but the streets to ride.

Almost everyone that resides on Patrick Street have children or Grandchildren that come and visit and play in the streets. The traffic on Patrick Street has tripled and so have the amount of children that reside in the neighborhood.

Below are the signatures of the residents in the Patrick Street neighborhood who would like to see a sidewalk project begin.

We are all taxpayers, although some of us maybe tax exempt because of a disability. But we look forward to hearing from the council concerning this matter.

As we believe our children's safety should always come first. With all the new traffic in this growing neighborhood we believe that a speed limit sign would also help to further the safety of the children, so that all drivers will be aware that there are a lot of children that might be playing in the area.

Thank you,
Patrick Street Residents

Dearington School "No speed limit Signs"
Also No "School Zone" Signs (Safety Issue)

Remember That Change Is a Natural Part of All Life

Clouds do not stand still
Trees bloom, then shed their leaves
Tides come to shore, then retreat
Night follows day
which in turn follows night
Life is a constant cycle
ever changing
yet never changing
and we are a part of it all
We will be here for a time
but only until our time is done
We have only just so much time
to make our mark
so that we are worth remembering
We should realize that we
are as important
as the clouds, the tides
  and the seasons
We have our place
and must play our part
as best we can
in life's ever-unfolding story
