Do to the graphic ~~nature~~ nature of lynchburgs name the residents feel that it is only right that it's name Be abolished. we all know the History on wich it was founded and feel that John lynch's speech was immoral and Disrespectful a slap to the face for our ancestors and our future generatoins. "How to make A Slave" Has no place in Todays Society Since America Has Advanced, It Seem's lynchburg Has taken Pride in reconstructing the city without considering How our children will still Be effected mentally thinking that their great grandparents were lynched Besides psycological problems it will effect all residents emotionally no one is proud of the speech and we are asking for a Petition to change Since Times Have changed churches will be notified of the Petition to show there concern thank you
