SPECIFICATIONS

2. QUESTIONS OR COMMENTS: For City solicitations done through the Procurement Division, all contact between bidders or prospective bidders and the City shall be only with the Procurement Division. Any questions which may arise as a result of this solicitation may be addressed to Florence Randolph, Purchasing Technician, at 434-455-3970, or by email to florence.randolph@lynchburgva.gov. Inquiries must be received at least 7 business days prior to the due date in order to be considered. Contact initiated by a bidder concerning this solicitation with any other City representative, not expressly authorized elsewhere in this document, is prohibited. No bidder or potential bidder shall initiate or engage in any discussions with any other employee of the City or any member of the City Council while a solicitation is outstanding concerning the contents of such solicitation or with the intent to influence or interfere with the contract award authorized by and described in such solicitation. A violation hereof may result in the disqualification of such bidder.
3. ADDENDA: Any changes or supplemental instructions to this Invitation for Bid shall be in the form of written addenda. All addenda are downloadable from the Procurement web site at <http://www.lynchburgva.gov/current-solicitations>. Each bidder is responsible for determining that all addenda issued have been received and shall acknowledge receipt of all addenda in the space provided or by returning a copy of each signed addendum. Failure to do so may result in rejection of the bid. All addenda so issued shall become part of the IFB and any resulting contract documents. Oral answers shall not be authoritative and shall not provide any basis for reliance by a bidder.
4. BRAND NAME OR EQUAL ITEMS: Unless otherwise provided in the Invitation for Bid, the name of a certain brand, make or manufacturer does not restrict bidders to the specific brand, make or manufacturer named. Such a brand name conveys the general style, type, character and quality of the article desired, and any article which the City, in its sole discretion, determines to be the equal of that specified, considering quality, workmanship, economy of operation, and suitability for the purpose intended shall be accepted.
5. FORMAL SPECIFICATIONS: When an Invitation for Bid indicates that it is a "formal specification" (no substitute), or otherwise states that the article specified, and no other, shall be provided, then the bidder shall furnish the article in strict conformity with the specification and may not offer a purported equal or substitute. The bidder shall abide by and comply with the true intent of the specifications and not take advantage of any unintentional error or omission. The bidder shall fully complete every part as the true intent and meaning of the specifications and drawings. Whenever a specification requires articles, materials, or workmanship to conform to laws, ordinances, regulations, building codes, underwriter laboratory standards, ASTM standards, or similar law or standards, the specification shall be construed to require at least the minimum acceptable standard allowed by the cited law or standard under the circumstances unless otherwise indicated.
6. OMISSIONS AND DISCREPANCIES: Unless otherwise indicated, any specification for an item of equipment shall be interpreted to include not only the item of equipment specified, but also those parts, items, appurtenances and accessories reasonably necessary to make the equipment complete and working.

BID PROCESS

7. TIME FOR RECEIVING BIDS: All sealed bids will be received in the Procurement Division Office, Third Floor, City Hall. It is the responsibility of the bidder to ensure bids are received by Procurement Staff and time stamped prior to the deadline for bids. Bids received prior to the time of opening will be securely kept unopened. No responsibility will be attached to the Procurement Division for the premature opening of a bid not properly addressed, received, and identified. Any bid opened prematurely will be resealed and kept securely until the time of opening. Bids, to include addenda or changes to a response, shall not be accepted via a FAX machine or by Internet E-mail. Late bids will not be accepted and will be returned unopened.

8. **SIGNATURE**: All bids shall be signed on the Terms and Signature Sheet in order to be considered. Bids submitted without a signature shall be rejected. If the Bidder is a partnership or corporation, the Bidder shall show the title of the individual signing the bid, and if the individual is not an officer of the partnership or corporation, if requested, the Bidder shall submit proof that the individual has the authority to bind the partnership or corporation.
9. **BID BONDS**: Only when specifically requested in the bid documents shall each bid be accompanied by a bid bond with surety satisfactory to the City or a Cashier's or a Certified Check, made payable to the City of Lynchburg. In the event of default by the Bidder, the deposit shall be and represent liquidated damages to the City. Bids received without a bid bond, when specifically requested, shall be rejected.
10. **BID MODIFICATION AND WITHDRAWAL**: Any bidder may withdraw or modify its bid, in writing containing the original signature of the bidder, which writing must be received by the City prior to the date and time set for submission of bids. Withdrawal or modification must be in writing and be delivered by one of the following means: (i) hand delivery by the bidder itself, a courier, or other delivery service; (ii) by mail (no consideration shall be given to any postmark); or (iii) by marking(s) on the exterior of the bid submission envelope, but only if the marking is dated and includes the original signature of the bidder. Written modifications of bids should not reveal the bid price contained in the previously submitted sealed bid, but should simply provide the desired addition, subtraction or modification, so that the final price or terms of the bid will not be known to the City until the sealed bids are opened. Modifications shall be on the interior envelope and sealed prior to submittal. No bid shall be altered or amended after the specified time for opening.
11. **BIDDERS PRESENT**: At the time fixed for the opening of sealed bids, their contents will be made public for the information of bidders and other interested parties who may be present either in person or by representative. All bids will be opened at the time and place specified and read publicly and remain available for inspection in the Procurement Division during regular City business hours by bidders prior to award (unless a determination is made not to make an award) and by the general public after an award is made. The City will post all notices of award to the Procurement Website.
12. **WITHDRAWAL OF BIDS**: A bidder may withdraw its bid from consideration if the price bid was substantially lower than the other bids due solely to a mistake therein, provided the bid was submitted in good faith, and the mistake was a clerical mistake, as opposed to a judgment mistake, and was actually due to an unintentional arithmetic error or an unintentional omission of a quantity of work, labor or material made directly in the compilation of a bid, which can be clearly shown by objective evidence drawn from inspection of original working papers, documents and materials used in the preparation of the bid sought to be withdrawn. The following procedure as stated in Section 18.1-11 of the Lynchburg Procurement Code shall be used to request withdrawal of a bid:
 - a. To withdraw a bid after bid opening due to error, a bidder must satisfy the substantive requirements of Va. Code §2.2-4330. In addition, the following procedures shall apply:
 1. The bidder shall give notice in writing of his claim of right to withdraw his bid within two business days after the conclusion of the bid opening procedure and shall submit original work papers with such notice.
 2. The mistake may be proved only from the original work papers, documents and materials delivered as required herein.
 - b. This section shall be deemed to be incorporated automatically into all invitations to bid issued by the city pursuant to the Lynchburg public procurement code. Nonetheless, the city manager or his designee(s) should ensure that this section is set out in all invitations to bid.

If a bid is withdrawn under the authority of this section and the solicitation is not cancelled, the lowest responsive and responsible remaining bid shall be deemed to be the low bid. No bidder who is permitted to

withdraw a bid shall, for compensation, supply any materials or labor to or perform any contract or other work agreement for the person or firm to whom the contract is awarded or otherwise benefit, directly or indirectly, from the performance of the project for which the withdrawn bid was submitted.

13. **ERRORS IN BID**: When an error is made in extending the total prices, the unit bid price will govern. Erasures in bids must be initialed by the bidder. Carelessness in quoting prices or in preparation of the bid otherwise will not relieve the bidder. Bidders are cautioned to recheck their bids for possible errors. Errors discovered after public opening cannot be corrected, and the bidder will be required to perform if his bid is accepted, unless the bidder successfully withdraws its bid in accordance with paragraph 12, Withdrawal of Bids.
14. **BIDDERS INTERESTED IN MORE THAN ONE BID**: If more than one bid is offered by any one person, by or in the name of their clerk, partner, firm, or corporation, all such bids may be rejected. A contractor who has quoted prices on work or supplies to a bidder is not thereby disqualified from quoting prices to other bidders or firms submitting a bid directly for the work, material or supplies.
15. **TAX EXEMPTION**: The City of Lynchburg is exempt from payment of Federal Excise Tax and State and Local Sales and Use Tax on all tangible personal property purchased or leased by the City for its use or consumption. Tax exemption certification will be furnished upon request. Sales tax, however, is paid by the City on materials and supplies that are installed by a contractor and become a part of real property. Contractors are not exempt from paying taxes on these categories, as they are considered to be a cost of doing business and should be considered in pricing when preparing a bid.
16. **PROPRIETARY INFORMATION**: Section 2.2-4342-F of the Code of Virginia states: "Trade secrets or proprietary information submitted by a bidder, offeror, or contractor in connection with a procurement transaction or prequalification application submitted pursuant to subsection B of 2.2-4317 shall not be subject to the Virginia Freedom of Information Act (2.2-3700 et seq.); however, the bidder, offeror, or contractor shall (i) invoke the protections of this section prior to or upon submission of the data or other materials, (ii) identify the data or other materials to be protected, and (iii) state the reasons why protection is necessary." Bids not in compliance with section 2.2-4342F will be subject to disclosure.
17. **GOVERNING LAW**: Any contract resulting from this Invitation for Bid shall be governed by the provisions hereof and by the laws of the Commonwealth of Virginia. Any dispute arising out of this Contract shall be resolved in the Courts of the Commonwealth of Virginia, in and for the City of Lynchburg.

AWARD

18. **AWARD DECISION**: Before the Contract is awarded, the bidder submitting the lowest responsive bid must satisfy the City that it has the requisite organization, capital, equipment, ability, resources, personnel, management, business integrity, and experience in the type municipal work for which it has submitted a bid. The bidder shall verify to the City that it has the sufficient and qualified personnel to provide for the Contract Work. Failure by the lowest responsive bidder to sufficiently satisfy the City of its ability to meet any of the above requirements may serve as grounds for rejection of the bid.

The Owner reserves the right to cancel the Advertisement for Bids, reject any and all bids, waive any and all informalities, and disregard all conforming, nonconforming, conditional bids or counterproposals.

19. **FACTORS OTHER THAN PRICE IN AWARD DECISION**: The following factors in addition to price (as they apply) shall be a consideration in the award decision:
 - a. The ability to provide references which may substantiate past work performance and experience in the type of work required for the contract. The lowest responsive bidder(s) may be required to furnish a contractor qualifications statement, to include references, prior to any such award. The City may contact all references

furnished by bidders. The right is further reserved by the City to contact references other than, and/or in addition to, those furnished by the bidder. If, in the sole opinion of the City, a bidder is determined to be non-responsible as a result of any investigation conducted by or for the City, award will not be made to that bidder.

- b. The previous and existing compliance by the bidder with laws and ordinances relating to the contract or services.
 - c. Whether the bidder is in arrears on a debt or contract or is in default on a security to the City or whether the bidder's county taxes or assessments are delinquent.
 - d. The quality of performance/workmanship of previous contracts for goods and/or services delivered to or performed for the City.
 - e. The timely completion of previous contracts for services or the timely delivery of past orders for goods.
 - f. The sufficiency of financial resources and its impact on ability of the bidder to perform the contract or provide the services.
 - g. The City reserves the right, at its option, to conduct on-site inspections of any bidder's facilities prior to award. The results of any such inspection will be considered by the City in determining bidder's capabilities of successfully administering the contract.
 - h. The ability and availability of the bidder to provide both quality and timely maintenance, service, and/or parts.
 - i. The resale value, life cycle costing and value analysis of a product.
 - j. The availability and capability of local and regional vendor support as it affects the quantity, quality, and timeliness of the goods and/or services.
 - k. Timely delivery of goods or timely completion of services as stated by bidder.
 - l. Substantial compliance or noncompliance with specifications set forth in bid as determined by the City.
 - m. Inventory capability as it relates to a particular bid.
 - n. Results of product testing.
 - o. Such other information as may be secured by the Procurement Manager having a bearing on the decision to award the contract.
20. AVAILABLE FUNDS: If the bid from the lowest responsible, responsive bidder exceeds available funding, pursuant to Section 18.1-9 of the Lynchburg Public Procurement Code, the Owner may negotiate with the apparent low bidder to obtain a contract price within available funds.
21. NOTICE OF AWARD/CONTRACT DOCUMENTS: A Notice of Award will be posted to the City's Procurement website within the time for acceptance specified in the solicitation shall be deemed to result in a contract binding on the bidder. To the extent they are included in or incorporated by the solicitation, the following documents are hereby incorporated in and shall form a part of the resulting contract:
- a. City Solicitation Form/Award Notice and other documents which may be incorporated by reference, if applicable.
 - b. General Conditions and Instructions to Bidders.
 - c. Special Provisions.
 - d. Pricing Schedule.
 - e. Any Addenda/Amendments.
 - f. Purchase Order.

22. TIE BIDS: In the case of a tie bid, the City may give preference to goods, services, and construction produced in the City or provided by persons, firms or corporations having principal places of business in the City. If such choice is not available, preference shall then be given to goods and services produced in the Commonwealth pursuant to Section 2.2-4324 of the Code of Virginia. If no City or Commonwealth choice is available, the tie shall be decided by lot.
23. PROMPT PAYMENT DISCOUNT: If discounts for prompt payment are offered by the bidder, it is required that a minimum of twenty (20) days be allowed for payment. Discounts for prompt payment will not be considered in the evaluation of bids. Discounts for prompt payment will be shown on the purchase order/contract and taken if invoices are processed and payment made within the stipulated time frame. If discounts are not offered, payment shall be made thirty (30) days after receipt of an approved invoice by the City.
24. INSPECTION-ACCEPTANCE: The goods and/or services delivered as a result of this bid shall remain the property of the seller until a physical inspection is made, and thereafter accepted to the satisfaction of the City. In the event the goods and/or services supplied to the City are found to be defective or do not conform to specifications, the City reserves the right to cancel the order upon notice (verbal or in writing) to the seller and return goods to seller at the seller's expense.
25. DEFINITE BID QUANTITIES: Subject to the City's right to termination for convenience, where quantities are specifically stated, acceptance will bind the City to order quantities specified and to pay for, at contract prices, all such supplies or services delivered that meet specifications and conditions of the contract. However, the City will not be required to accept delivery of any balances unordered, as of the contract expiration date, unless the Contractor furnished the Procurement Manager with a statement of unordered balances not later than ten (10) days after the termination date of the contract.
26. REQUIREMENTS BID QUANTITIES: On "Requirement" bids, acceptance will bind the City to pay for, at unit bid prices, only quantities ordered and delivered.
 - a. Whenever a bid is sought seeking a source of supply for a requirements contract for goods and/or services, the quantities or usage shown are estimates only. No guarantee or warranty is given or implied by the City as to any minimum or total amount that may or may not be purchased from any resulting contracts.
 - b. The City reserves the right, at its sole option, to renew the contract for consecutive terms.
 - c. The City reserves the right to award bids for requirements contracts based on the pricing of the initial term of the contract or any combination of initial and renewal terms.
 - d. The City may award a bid to a single contractor or to multiple contractors.
 - e. The City reserves the right not to renew the contract at the end of the initial term or any subsequent term.
 - f. The City reserves the right to terminate the contract upon written notice to the contractor(s).
 - g. In the event that a requirements contract is awarded for goods and/or services, the City reserves the right to bid individual purchases if the City deems it will best serve their interest.
 - h. It is understood and agreed to between the parties in a resulting contract that the City shall not be obligated to purchase or pay for materials under such contract unless and until they are ordered and delivered.
 - i. Bids based on a firm price or those including a "downward escalator" clause for a requirements contract term may be given preference over lower ones bearing an "escalator" clause.
 - j. The City has the right to extend this contract up to and not to exceed one hundred eighty (180) days following any term of the contract.

27. SCHOOL BOARD: When goods and/or services are for the benefit of Lynchburg City Schools, the contract shall be entered into on behalf of the Lynchburg City School Board.

CONTRACT PROVISIONS

28. TERMINATION OF CONTRACTS: Contracts will remain in force for full periods specified and/or until all articles ordered before date of termination shall have been satisfactorily delivered and accepted and thereafter until all requirements and conditions shall have been met unless:
- a. Terminated prior to expiration date by satisfactory deliveries of entire contract requirements, or upon termination by the City for convenience or cause, or upon termination by Contractor for material breach by the City.
 - b. Extended upon written authorization of the Procurement Manager and accepted by Contractor, to permit ordering of unordered balances or additional quantities at contract prices and in accordance with contract terms.
29. TERMINATION FOR CONVENIENCE: A contract may be terminated by the City in accordance with this clause in whole or in part whenever the Procurement Manager shall determine that such a termination is in the best interests of the City. Any such termination shall be effected by delivery to the Contractor at least (5) working days prior to the termination date of a Notice of Termination specifying the extent to which performance shall be terminated and date upon which such termination becomes effective. An adjustment in the contract price shall be made to compensate the contractor for his/her actual costs incurred in performance prior to termination that, as determined in the City's discretion, are reasonable, allocable, and allowable, plus a reasonable amount of profit on such costs. In no event shall the City be liable to the contractor for anticipated profits for unperformed work or undelivered goods or for any consequential, special, incidental, or punitive damages of any kind. In no event shall the City be liable for any amount over the contract price.
30. TERMINATION OF CONTRACT FOR CAUSE:
- a. The City may, by written notice of termination to the Contractor specifying a termination date at least five days thereafter, terminate this contract for cause in whole or in part if the Contractor (1) fails to deliver the goods or perform the services this contract requires within the time this contract specifies, or (2) fails to perform any of its other obligations under this contract or violates any provision of this contract.
 - b. If this contract is terminated for cause, the Procurement Manager may require the Contractor to transfer title and deliver to the City, as directed by the Procurement Manager, any completed or partially completed goods and documents, data, studies, surveys, drawings, maps, models and reports ("deliverables") prepared by the Contractor under the contract. The City shall pay the contract price for such completed goods and deliverables. The Contractor and Procurement Manager shall agree on the amount of payment for partially-completed goods and deliverables the City requires the Contractor to transfer and deliver to it. If the parties fail to agree, then the Contractor may present a claim to the City for its reasonable costs for the partially-completed goods and deliverables. Costs recoverable shall be limited to those that, as determined in the City's discretion, are reasonable, allocable, and allowable. Such costs in no event shall exceed the contract price for the goods and deliverables if completed.
 - c. Notwithstanding the above, the Contractor shall not be relieved of liability to the City for damages sustained by the City by virtue of any breach of contract by the Contractor for the purpose of setoff until such time as the exact amount of damages due to the City from the Contractor is determined.
 - d. If the City terminates this contract for cause when cause, in fact, does not exist, then the termination shall for all purposes be deemed a termination for convenience under this contract, and the termination for convenience clause shall apply for all purposes.

- e. If Contractor properly terminates this contract for material breach by the City, Contractor's damages shall be limited to the amounts recoverable by Contractor for a termination for convenience.
31. CONTRACT MODIFICATIONS: No modifications in the terms of a contract shall be valid or binding upon the City unless made in writing, signed, and duly authorized by the City.
32. FUNDING: The continuation of the terms, conditions, and provisions of any resulting contract beyond June 30 of any year, the end of the City's fiscal year, are subject to approval and ratification by Lynchburg City Council and appropriation by them of the necessary money to fund said contract for each succeeding year.
33. NEW GOODS, FRESH STOCK: Unless otherwise specifically stated, the Contractor shall provide new rather than used goods, fresh stock, and the latest model, version, design or pack of any item specified.
34. NON-DISCRIMINATION: During the performance of this contract the Contractor agrees as follows:
- The Contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability or other basis prohibited by state law relating to discrimination in employment except where there is a bona fide occupational qualification reasonably necessary to the normal operation of the Contractor. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this non-discrimination clause.
 - The Contractor, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, will state that such Contractor is an Equal Opportunity Employer.
 - Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient for the purpose of meeting the requirements of this section.
 - The Contractor will include the provisions of the foregoing paragraphs a, b, and c above in every subcontract or purchase order of over ten thousand dollars so that the provisions will be binding upon each subcontractor or vendor.
35. DRUG FREE WORKPLACE: Section 2.2-4312 Code of Virginia. For the purposes of this section, "drug-free workplace" means a site for the performance of work done in connection with a specific contract awarded to a contractor in accordance with this chapter, the employees of whom are prohibited from engaging in the unlawful manufacture, sale, distribution, dispensation, possession or use of any controlled substance or marijuana during the performance of the contract.
- During the performance of this contract, the contractor agrees to:
- Provide a drug-free workplace for the contractor's employees
 - Post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the contractor's workplace and specifying the actions that will be taken against employees for violations of such prohibition
 - State in all solicitations or advertisements for employees placed by or on behalf of the contractor that the contractor maintains a drug-free workplace
 - Include the provisions of the foregoing clauses in every subcontract or purchase order over \$10,000, so that the provisions will be binding upon each subcontractor or vendor
36. MINORITY AND WOMEN OWNED BUSINESS ENTERPRISES: It is the policy of the City to undertake every effort to increase opportunity for utilization of small, minority-owned, and women-owned businesses in all aspects of procurement to the maximum extent feasible.

- a. In connection with the performance of this contract, the Contractor agrees to use his/her best effort to carry out this policy and ensure that Small, minority-owned, and women-owned businesses shall have the maximum practicable opportunity to compete for subcontract work under this contract consistent with the efficient performance of this contract.
 - b. As used in this contract, the term "Small Business" is defined as a business, independently owned and controlled by one or more individuals who are U.S. citizens or legal resident aliens, and together with affiliates, has 250 or fewer employees, or average annual gross receipts of \$10 million or less averaged over the previous three years. One or more of the individual owners shall control both the management and daily business operations of the small business. (Code of Virginia 2.2-4310)
 - c. As used in this contract, the term "Minority-Owned Business" is defined as a business that is at least 51% owned by one or more minority individuals who are U.S. citizens or legal resident aliens, or in the case of a corporation, partnership, or limited liability company or other entity, at least 51% of the equity ownership interest in the corporation, partnership, or limited liability company or other entity is owned by one or more minority individuals who are U.S. citizens or legal resident aliens, and both the management and daily business operations are controlled by one or more minority individuals. (Code of Virginia 2.2-4310)
 - e. Where federal grants or monies are involved, it is the policy of the City through its agents and employees to comply with the requirements set forth - Standards Governing State and Local Grantee Procurement - of the U.S. Office of Management and Budget Circular N. A-102, Uniform Administrative Requirements for Grants-in-Aid to State and Local Governments, as they pertain to small and minority business utilization.
37. **GUARANTEES & WARRANTIES:** Unless otherwise specifically indicated in the solicitation, by entering into the contract, the Contractor itself warrants and guarantees all goods and services furnished (1) in accordance with the General Guaranty and Service Contract Guaranty paragraphs herein, and (2) in accordance with the provisions of the Uniform Commercial Code. In addition, the Contractor shall properly transfer to the City all standard warranties given by the manufacturer(s) of any goods furnished. The Contractor shall deliver all manufacturers' warranties to the Procurement Manager before final payment on the contract.
38. **PRICE REDUCTION:** If any time after the date of the bid the Contractor makes a general price reduction in the comparable price of any material covered by the contract to customers generally, an equivalent price reduction based on similar quantities and/or considerations shall apply to the contract for the duration of the contract period (or until the price is further reduced). Such price reduction shall be effective at the same time and in the same manner as the reduction in the price to customers generally. For purpose of this provision, a "general price reduction" shall mean any horizontal reduction in the price of an article or service offered (1) to contractor's wholesalers, jobbers, retailers, etc., which was used as the basis for bidding on this solicitation. An occasional sale at a lower price, or sale of distressed merchandise at a lower price, would not be considered a "general price reduction" under this provision. The Contractor shall submit invoices at such reduced prices indicating on the invoice that the reduction is pursuant to the "Price Reduction" provision of the contract documents. The Contractor in addition will, within ten (10) days of any general price reduction, notify the Procurement Division of such reduction by letter. **FAILURE TO DO SO WILL BE A BREACH OF THE CONTRACT AND MAY REQUIRE TERMINATION OF THE CONTRACT.** Upon receipt of any such notice of a general price reduction, all ordering offices will be duly notified by Procurement.

39. CHANGES: The City may, at any time, without notice to any sureties, by written order indicated to be a change order, make changes within the general scope of the contract, including without limitation, changes in (1) specifications (including drawings and designs), (2) method of packing and shipment, (3) method or manner of performance, (4) place of delivery, and (5) time for performance and completion.
- a. Within fifteen (15) days of receipt of a change order, the Contractor shall submit a written proposal for any equitable adjustment to the contract price, delivery schedule, or both, that should in fairness be made due to the change order. The parties shall then agree to and sign a modification to the contract that makes an equitable adjustment to the contract price, delivery schedule, or both.
 - b. If the parties cannot agree to a modification to the contract, then the City may either cancel the change order at no expense to the City or order in writing that the Contractor proceed with the change order.
 - c. If the City orders in writing that the Contractor proceed with the change order and no adjustment is agreed upon, then the Contractor or City may submit a claim for an equitable adjustment to the contract price, delivery schedule, or both, due to the change order. Any equitable adjustment as to contract price shall be limited to the increase or decrease in cost reasonably attributable to the change order that, as determined in the City's discretion, are reasonable, allocable, and allowable. Any equitable adjustment as to delivery schedule shall be limited to an increase or decrease in schedule reasonably attributable to the change order.
 - d. Nothing shall excuse the Contractor from proceeding with the contract as changed by written change order.
 - e. No payment shall be made to the Contractor for any extra material or services or for any greater amount of money than the written contract stipulates unless the procedures of this clause have been strictly followed.
40. PLACING OF ORDERS: Orders against contracts will be placed with the Contractors on a Purchase Order executed and released by the Procurement Division. The Purchase Order must bear the appropriate contract number and date. Where Blanket Purchase Agreements (BPAs) have been executed and a Purchase Order has been released by Procurement, telephonic orders may be placed directly with the Contractor by the ordering office. Such agreements (BPA) are normally reserved for the purchase of highly repetitive items on a day-to-day basis.

DELIVERY PROVISIONS

41. SHIPPING INSTRUCTIONS-CONSIGNMENT: Unless otherwise specified in the solicitation, each case, crate, barrel, package, etc., delivered under the contract must be plainly stenciled or securely tagged, stating the Contractor's name, purchase order number, and delivery address as indicated in the order. Where shipping containers are to be used, each container must be marked with the purchase order number, contract number, name of the Contractor, the name of the item, the item number, and quantity contained therein. In case of carload lots, the Contractor shall tag the car, stating Contractor's name and purchase order number. Any failure to mark items as required by the instructions will cause the Contractor to bear the risk of any resulting loss of or damage to material, or late delivery or misdelivery of material and any damages resulting therefrom. Deliveries must be made during the City's normal business day (Monday to Friday, except holidays, from 9:00 A.M. to 4:00 P.M.) and sufficiently before closing time to permit unloading, inspection, and storage, unless specific arrangements have previously been agreed upon with the City's storekeeper at the delivery point. The successful vendor will be provided with the names of authorized personnel at time of contract award.

City of Lynchburg and/or participating public bodies will request deliveries be made at a specific time during the day. Successful vendor shall make every effort to comply any special delivery request as required. Consistent failure to deliver product as outlined in these specifications may be grounds for termination of contract.

During inclement weather conditions or emergencies, the successful vendor, upon request of an authorized agent of the City or participating public body will “top off” certain fuel tanks on a daily basis. This will be performed during normal work hours, if possible. If drivers need access after-hours to finish requested deliveries, arrangements must be made with City or other participating public body’s personnel.

DELIVERY TERMS:

1. The vendor agrees to deliver on Saturday, Sunday and holidays if an emergency situation exists. The City reserves the right to so declare that such a situation does indeed exist. Under an emergency situation, vendor must provide requested product no later than eight (8) hours after receipt of request. Vendor shall provide after-hours toll free telephone number and name of individual to contact for emergency fuel delivery. If successful vendor cannot deliver the product requested for any reason, the City has the right to purchase from any other source without violation of contract in order to supply product.
2. Vendor shall be capable of having multiple transport and tank wagon loads delivered on the same day and possibly at the same time to various locations. Inability of successful vendor to provide multiple deliveries as requested may be grounds for termination of contract.
3. Successful vendor is obligated to insure that delivery vehicles are maintained in proper working order and operated by trained personnel. Vendor shall notify contracted carrier (if applicable) that they will be responsible for containing and cleaning up all fuel spills caused by driver neglect or carrier equipment failure. If carrier does not respond and the City must clean the spill, vendor will reimburse the City for all expense incurred.
4. All refinery metered loading tickets shall be left with each delivery. Driver of delivery vehicle shall take a stick reading prior to off-loading fuel followed by a second reading after fuel has been off-loaded to determine actual quantity of fuel delivered. Measuring stick used for this reading shall contain paste on stick end that is capable of determining if water exists in off-loaded fuel.
5. All tank wagon delivery vehicles shall be equipped with a metered pump and a metered delivery ticket shall accompany each delivery.
6. A transfer sheet shall be supplied for all additives to comply with diesel specifications that list the name of the additive and amount as a percentage (%).

7. The City delivery locations are shown on **Attachment A**. Successful vendor is responsible for inspecting the premises of each City fuel site in order to thoroughly familiarize themselves with the existing conditions and detail of the sites and to fully understand the facility restrictions and limitations pertinent to the delivery of product. Failure on the part of the vendor to inspect the premises and obtain pertinent information does not exempt vendor from this duty.

The vendor shall guarantee that the transport and tank wagon vehicles used for delivery to designated locations are in compliance with all local, state and federal rules, regulations and procedures and that vehicle operators comply with all applicable local, state and federal regulations regarding unloading fuel products including appropriate venting procedures. Vehicles used for delivery shall have a current inspection and registration from the Commonwealth and must be properly insured. The name of the company shall be displayed on both sides of all delivery vehicles.

8. Vapor recovery systems for gasoline must be on all contractor delivery systems and shall carry systems that are compatible with the vapor recovery system of each tank, at each delivery site to which such gasoline is required to be delivered.

Any repairs or cleanup services shall be made at the vendor's expense to the satisfaction of the City. Upon the failure of the vendor to comply with these stipulations in a reasonable time, the City may, at its option, repair damages and/or perform the necessary services and bill same to the vendor for reimbursement.
5. In the event of a spill, the driver of the delivery vehicle must immediately take action to prevent product from accessing drains or storm sewers. This may be accomplished by digging soil and/or constructing an earth beam using oil dry or other containment material or absorption methods to contain the spilled product. As soon as practical after action is taken to minimize damage from the spilled product or to preclude its entry into a drain or storm sewer system, the spill must be reported by calling the City of Lynchburg Communications Center (911). The provisions of the federal Water Pollution Control Act of 1972 (as amended) provide definitions of an oil spill. All local, federal and state pollution and hazardous material control requirements shall be applicable to any resultant contract.
6. The successful vendor shall be responsible for protection of the City's property and adjoining properties from damage or loss arising in connection with the execution of any contract as a result of these specifications. Vendor shall take all necessary precautions for the safety of employees and shall comply with all applicable provisions of local safety laws, ordinances and building codes to prevent accidents or injury to person or persons on, about, or adjacent to the premises. The successful vendor shall maintain at all times safeguards for the protection of employees and the public. If the successful vendor uses a common carrier for deliveries, the responsibilities outlined above shall still be required of the successful vendor to enforce.
7. The successful vendor shall at all times keep the premises free from accumulation of waste, spillage or other debris caused by vendor's employees or subcontractors or by delivery and discharge of product. At the completion of each delivery, delivery personnel shall remove all debris or waste product, etc. In case of dispute, the City may remove debris and repair damage caused by delivery of product and bill the cost to the successful vendor as a result of these specifications.
8. The successful vendor shall be responsible for compliance with all federal, state, and local regulations and directives in regards to the safe delivery and transfer of motor fuel into underground or aboveground storage tanks.
9. The successful vendor shall ensure the fuel delivery driver/operator remains in attendance with the delivery vehicle and equipment during fuel delivery and transfer.

The immediate area is defined as the area within two (2) feet of where the tanker truck fuel delivery hose coupling attaches to the top of the underground fuel storage tank.

11. Vendors must submit a toll free telephone number for communication purposes and an emergency toll free number for after-hours, weekends and holidays.
12. Bidders shall submit appropriate documentation to certify that all applicable taxes such as real estate, business license, personal property, etc. have been filed and are fully paid and will remain paid on a timely basis throughout the life of any subsequent agreement.
13. The successful contractor shall supply the City of Lynchburg diesel fuel with anti-gel additive during winter months from November 15 through March 31 of each year. Bidders shall state the name of the proposed fuel additive and the City reserves the right to accept or reject the offered product.
14. No bid may be withdrawn during the period of thirty (30) days following the deadline for submission of bids. In the event such bid is accepted, the bidder will perform in accordance with the terms of the bid.
15. In case of failure to deliver goods or services in accordance with the contract terms and conditions, the City, after due oral or written notice, may procure the goods or services from other sources and hold the vendor responsible for any resulting additional purchase and administrative costs. This remedy shall be in addition to any other remedies which the City may have.
