Addendum for Bid
80,000 GVWR
SLUDGE-HAULING WATERTIGHT ALUMINUM TRAILERS

Date: October 15, 2015

RE: Addendum No. 1

From: Florence Randolph,
Purchasing Technician, VCA

Bid No.: 2016-029

NOTE: This addendum must be signed and returned with the original package.

The following items are in response to questions generated in regards to the above solicitation; please amend the bid/proposal as follows:

Questions received for clarification:

Question 1: Page 20 – Under Work Site, Visit and Demonstration?

Instructions are very clear. The work area is very tight; vendor's needs to visit and confirm the trailers will work in the area. Same for demonstration of trailers.

TRAILER SPECIFICATIONS: 1.1 Chassis C: Frame – Page 21

Question 2: Frame layout shows the problem area. "Swing clearance" is the distance required to the tractor drive axles from hitting the trailer landing gear.

Answer: As pointed out in the specs under 1.0 Intent of Specifications Item E Paragraph 2, potential bidders "shall visit the work site and inspect the area to verify that the trailer bid meets the turning, maneuverability and storage requirement". By the following this requirement the bidder can view units currently set up there to verify their trailer with 8 extra inches will work.

NOTED: J&J trailer bid was received during the last bidding cycle and the bidder did not take an exception to the 22 foot length.

Question 3: Can you get me a picture of what you are running now?

Answer: When the vendor does their site visit they can see existing units and take pictures.

Question 4: Vendor offer a side dump trailers?

Answer: Side dump trailers will not be accepted. Our current fleet is based off of the advertised specifications.

**80,000 GVWR
SLUDGE-HAULING WATERTIGHT ALUMINUM TRAILERS**
