**Addendum for Invitation for Bids
Roof Replacements for the Miller Park Pool & Restroom Buildings
2016-070**

Date: 05/24/2016
From: Lisa Moss, Buyer VCA
RE: Addendum No. 1

This Addendum supplements and amends the original Plans and Specifications and shall be taken into account in preparing proposals and shall become a part of the Contract Documents. The Bidder shall indicate receipt of this Addendum and all previously issued Addenda on the Bid Form.

- 1. Revised drawing: A1.1 Roof Plans replaces existing drawing. Drawing is attached as separate file to this addendum.**

2. What is the motivation for wanting to do the work in the summer when the parks/pool are is at peak use? Was or would there be any consideration for doing the work September-October? Benefit for many of us would be the ability to work around our busiest season.
Work on this project is to commence in July or August.

3. The simplest and most economical metal roofing system would be to job site roll form a 1" or 1.5" standing seam out of 26ga. Prepainted metal. The metal would have the same finish as you have specified and would carry a 30 year finish warranty. It would seem to make more sense to have the same panels/seams on all the buildings.
Project is to be bid as designed.

- 4. City will trim back trees adjacent to pool house roof both sides.**

- 5. Truck access will be allowed, on grass adjacent to roofs to be replaced, as required.**

- 6. Toilet access, water and electricity as provided by the City as available.**
