

## SOLE SOURCE

June 27, 2016

### Aerial Image Capture

The City of Lynchburg intends to award services for the Winter 2017 aerial image capture to Pictometry International Corporation, 25 Methodist Hill Drive, Rochester, NY 14623 as a sole source contract. The following deliverables will be included in the contract for the Winter 2017 flight:

- Leaf off capture of 3" oblique aerial imagery;
- Accuplus upgrade to 3" of the orthoimagery;
- LiDAR data;
- 1' contours and a new digital elevation model generated from LiDar; and
- Planimetric and impervious surface updates.

The sole source justification is based on Pictometry's proprietary photo system for the oblique imagery and its full integration with the ProVal software system used by the City Assessor's Office. The additional services are being done in conjunction with the same flight to maintain consistency in deliverables in the most cost effective manner.
