** Note to Customers **

The following is a list of certified testers and/or the companies who employ them. The listed testers/companies have provided the City of Lynchburg with the appropriate paperwork from a backflow instructor/school stating they are certified to perform tests on backflow assemblies. The "Tester List" provided by the City of Lynchburg is merely a reference list. The City of Lynchburg is not responsible for the following items performed by a certified tester/company: (including but not limited to) tests performed in the allotted time given by the City, agreement with the tester/company to deliver the appropriate paperwork in the allotted time, and/or cost to the customer. If a customer feels that a tester/company has acted in an unprofessional or unethical manner and/or has any other concerns, a complaint can be filed with the City's Compliance Specialist by calling 434-455-4261.
