

#FLYLYH

WHAT TO EXPECT WHEN YOU TRAVEL.

Here are key changes in place or coming soon at Lynchburg Regional Airport.

CLEANING

Airport team members have increased their cleaning frequency throughout the terminal.

GIVE YOURSELF TIME

All passengers are encouraged to arrive an hour before their flight to reduce congestion at areas such as the ticket counter and TSA checkpoint.

TOUCH POINTS

Reduce touch points by encouraging the use of mobile boarding passes and carry-on luggage only.

GROUND MARKINGS

Ground markings are being used to encourage proper spacing.

HAND SANITIZERS

Hand sanitizing stations are available in many areas of the terminal including TSA checkpoint, the boarding area, and baggage claim.

FACE MASKS

American Airlines is requiring passengers to wear face coverings while onboard the aircraft. Before your trip check air carrier requirements and local regulations for your destination.

PLASTIC SHIELDS

Plastic shields are located in select tenant spaces including the TSA check in podium and airline ticket counter.

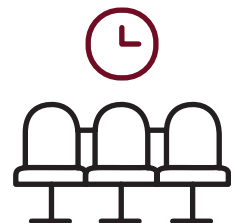

TSA CHECKPOINTS

The TSA queue lines have been marked for social distancing. TSA has reorganized their check in podium to minimize contact.

GATE AREAS

Seating in airport public areas has been rearranged to maximize social distancing.

MEETER-GREETERS

The first 30 minutes of the parking at Lynchburg Regional Airport is free. Consider socially distancing in your vehicle while waiting for a passenger.
