

# Lynchburg, Virginia

## General Obligation Bonds New Issue Report

### Ratings

<b>New Issue</b> Public Improvement and Refunding Bonds, Series 2016	AA+
<b>Outstanding Debt</b> General Obligation Bonds	AA+

### Rating Outlook

Stable

### New Issue Details

**Sale Information:** \$49,600,000 Public Improvement and Refunding Bonds, Series 2016, expected to sell competitively on April 27.

**Security:** Payable by Lynchburg's pledge of its full faith, credit and taxing power.

**Purpose:** Fund various public improvement projects and to refund and defease certain outstanding GO bonds of the city.

**Final Maturity:** Dec. 1, 2038.

### Key Rating Drivers

**Strong Revenue and Expenditure Control:** The rating reflects the city's strong control of revenues and expenditures and strong budget management, which produced healthy reserves. The city's long-term liability burden is manageable.

**Economic Resource Base:** The city of Lynchburg is located along the James River in central Virginia, roughly 50 miles east of Roanoke. The city has exhibited steady growth in population at an average annual rate of 1.5% since the 2000 U.S. Census, which is faster than that of the state and the nation; the 2014 population is estimated at 79,047.

**Revenue Framework: 'aaa' factor assessment.** The city's revenue stream is diverse, and its largest source, property taxes, has no legal limit. General fund revenues have historically grown on par with the national economy and Fitch expects that they will continue on this path.

**Expenditure Framework: 'aaa' factor assessment.** The city proactively manages budgets and maintains ample cost-cutting ability.

**Long-Term Liability Burden: 'aa' factor assessment.** The liability burden is moderate and expected to remain so. The city's liabilities are primarily in the form of direct debt, which is manageable due to prudent debt policies including the wide use of pay-as-you-go capital funding.

**Operating Performance: 'aaa' factor assessment.** The city's healthy financial reserves are well in excess of their 10% policy and, in conjunction with the city's superior ability to adjust revenues and spending, leave the city very well positioned to address cyclical declines.

### Rating Sensitivities

**Reserves Provide Sound Financial Cushion:** The rating is sensitive to shifts in fundamental credit characteristics, including the county's strong financial management practices and healthy reserve levels. The Stable Rating Outlook reflects Fitch's expectation that such shifts are unlikely.

Scenario Analysis

v. 1.04 2016/03/31

**Analyst Interpretation of Scenario Results:**  
 The city's financial resilience comes from a combination of expenditure cutting and revenue raising flexibility and maintaining a strong reserve cushion. An unaddressed moderate economic decline scenario shows an operating reserve cushion that Fitch judges to be consistent with an 'aaa' financial resilience assessment. Moreover, Fitch expects that in the event of such an actual revenue decline of this magnitude the city would maintain reserves at a significantly higher level through active expenditure management.

Scenario Parameters:	Year 1	Year 2	Year 3
GDP Assumption (% Change)	-1.0%	0.5%	2.0%
Expenditure Assumption (% Change)	2.0%	2.0%	2.0%
Revenue Output (% Change)	-1.0%	2.0%	3.2%

Reserve Safety Margin (aa)	12.0%		6.0%		4.0%		2.5%		2.0%	
Reserve Safety Margin (a)	8.0%		4.0%		2.5%		2.0%		2.0%	
Reserve Safety Margin (bbb)	3.0%		2.0%		2.0%		2.0%		2.0%	

Notes: Scenario Analysis represents an unaddressed stress on issuer finances. Fitch's downturn scenario assumes a -1.0% GDP decline in the first year, followed by 0.5% and 2.0% GDP growth in Years 2 and 3, respectively. Expenditures are assumed to grow at a 2.0% rate of inflation. Inherent budget flexibility is the analyst's assessment of the issuer's ability to deal with fiscal stress through tax and spending policy choices, and determines the multiples used to calculate the reserve safety margin. For further details, please see Fitch's US Tax-Supported Rating Criteria.

Diversifying Economy

Lynchburg's historically strong manufacturing and distribution base remains important to the local economy, although the city has expanded to become a regional hub for higher education, health services, industrial engineering, and retail activity. Education and health are the largest employment sectors in the city, which includes five higher education institutions.

Applicable Criteria

U.S. Tax-Supported Rating Criteria (April 2016)

Growth potential for the higher education sector is promising at the largest institution, Liberty University. The large number of students in the city contributes to the below-average wealth

levels; median household income is 76% of the nation and just 61% of the state. The individual poverty rate is high at 25%.

**Revenue Framework**

The city's positive revenue framework assessment benefits from its diverse revenue stream, which includes a mix of property, sales and meals taxes and other non-tax revenue. Property taxes are the most significant source of general fund revenue at 42% and have grown on pace with total general fund revenues, producing year-over-year increases in all but the first year since the recession began.

General fund revenues have grown ahead of inflation and on par with national GDP over the last ten years without significant policy action. There is no limit to the property tax rate in the commonwealth of Virginia.

**Expenditure Framework**

The city maintains healthy expenditure flexibility with moderate spending associated with fixed carrying costs. School spending is the largest expenditure item for the city with enrollment numbers tracking similar to population growth. Spending is increasing generally along the lines of revenue growth and economic expansion.

The city maintains a significant level of expenditure flexibility due to the favorable workforce environment that prohibits labor contracts and gives management independent control of compensation and work rules. Carrying costs associated with debt service, actuarially determined pension payments and OPEB actual contributions total a manageable 13.6% of governmental spending.

**Long-Term Liability Burden**

The city's overall liability burden is moderate at 12.5% of personal income, primarily driven by debt, but also includes the unfunded portion of the pension.

Debt levels are moderately low with overall debt totaling 3.3% of full market value. Debt amortization is average with 53% scheduled for retirement within 10 years. Debt levels are not expected to increase in the near term as minimal new debt issuance is planned in the five year capital improvement plan (CIP) through 2020 for government and school projects and includes significant pay-as-you-go funding.

All city employees participate in the Virginia Retirement System (VRS), an agent and cost-sharing multiple employer-defined benefit pension plan administered by the commonwealth. The city's portion of the VRS is funded at 69% based on the most recent actuarial report, which makes reasonable assumptions including a 7% investment rate of return. The city makes the full actuarially determined contribution each year.

**Debt Statistics**

(\$000, Audited Fiscal Years Ended June 30)

**Debt Statistics**

### Operating Performance

The city's financial resilience comes from a combination of expenditure cutting and revenue raising flexibility and maintaining a strong reserve cushion. For details, see "Scenario Analysis," page 2.

The city practices conservative budgeting and added to reserves throughout the recession without postponing capital spending. Fiscal 2015's use of reserves for one-time capital spending was the first since fiscal 2007. Fitch expects the city to maintain reserves above its fund balance policy.

The city maintains a healthy financial cushion (30% of general fund expenditures and transfers out at fiscal 2015 year-end) that is well in excess of the city's unassigned fund balance policy, which requires reserves of no less than 10% of general fund revenue.

The ratings above were solicited by, or on behalf of, the issuer, and therefore, Fitch has been compensated for the provision of the ratings.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.
