**** Note to Customers ****

The listed testers/firms noted above have provided the City of Lynchburg with documentation from VA DPOR, etc. to confirm they are certified to perform tests on backflow prevention assemblies. This list, as provided by the City of Lynchburg is merely a reference list. The City of Lynchburg is not responsible for the following items performed by a certified tester/firm: (including but not limited to) tests performed in the allotted time given by the City, agreement with the tester/firm to deliver the appropriate paperwork in the allotted time, and/or cost to the customer. If a customer feels that a tester/firm has acted in an unprofessional or unethical manner and/or has any other concerns, a complaint can be filed with the City's Compliance Specialist by calling 434-455-4261.
